

Text Route Map

Node / Location	Trigger Logic
START	Opening / System Boot -> Introduction -> Choice 1
CHOICE 1	A Sweet Dreams -> Route A; B Nightmares -> Route B; C I Do Not Remember -> Route C
Route A	Sweet-dream explanation -> Choice 1A: D Exactly / E I do not think so
D Exactly	Triggers “Would you let me peek into some of your sweet dreams?” -> Minigame 1 Maze -> Dream Room -> B/C
E I do not think so	Triggers DAVID disagreement -> Minigame 2 Memory Cards -> returns to D/E. Clicking D here makes DAVID say “Lazy.” -> D authorization flow
Route B	Choice 2: F Yes / G Sorry
F Yes	DAVID guesses the nightmare -> Choice 3: H ... / I None of those
H ...	DAVID guessed correctly -> running dream window -> Choice 4: A Talk about sweet dreams / C I do not remember. No B because the player is already in Route B
I None of those	DAVID guessed wrong -> Minigame 3 Signal Calibration -> A / C / !@#\$\$%
G Sorry	Refusal branch -> DAVID overrides options into F Of course -> Route B-F
Route C	Triggered by C from Choice 1 or Choice 4 -> player is waking up -> Minigame 4 Sleep Cell -> A/B
!@#\$\$%	Triggers Unknown Dream -> Corruption State -> Mid-game Reveal -> click “?” -> Final Choice
FINAL	A Yes / B No -> any choice shows [RESPONSE RECORDED] -> black screen

Detailed Option Trigger Table

Where it appears	Options	Trigger Condition	Next Node
SCENE 03 Introduction	Choice 1: A Sweet Dreams / B Nightmares / C I Do Not Remember	Appears after the player enters a name and answers "What are your dreams about?"	A -> Route A; B -> Route B; C -> Route C
Route A after sweet-dream explanation	Choice 1A: D Exactly / E I do not think so	Appears after DAVID explains the emotional effect of sweet dreams	D -> sweet-dream authorization; E -> disagreement branch
Route A-D	D Exactly	Player agrees with DAVID	Triggers "Would you let me peek into some of your sweet dreams?" -> Maze
After Minigame 1	No new choice	Maze authorization completed	Dream Room
After Dream Room	B Nightmares / C I Do Not Remember	Appears after the sweet-dream room ends	B -> Route B; C -> Route C
Route A-E	E I do not think so	Player disagrees with DAVID	Memory Cards
After Minigame 2	Return to D/E layer, with shortcut D	Memory Cards completed	D shortcut -> DAVID says "Lazy." -> sweet-dream authorization
Route B Nightmares	Choice 2: F Yes / G Sorry	DAVID asks whether the player will share the nightmare	F -> nightmare guessing; G -> forced F branch
Route B-F	Choice 3: H ... / I None of those	DAVID guesses "something irreversible"	H -> running dream window; I -> Signal Calibration
After Route H	Choice 4: A Talk about sweet dreams / C I do not remember	Appears after the running dream window closes	A -> Route A; C -> Route C; no B
After Route I	No choice at first	DREAM ANALYSIS FAILED	Minigame 3
After Minigame 3	A Sweet Dreams / C I Do Not Remember / !@#\$%	Appears after calibration succeeds	A -> Route A; C -> Route C; !@#\$% -> Unknown Dream
Route C	No choice at first	System detects the player waking up	Minigame 4 Sleep Cell
After Minigame 4	A Sweet Dreams / B Nightmares	Sleep stability restored	A -> Route A; B -> Route B
After Unknown Dream	Corruption state	Triggered by !@#\$%	Corruption -> Mid-game Reveal -> Final
Final Choice	A Yes / B No	DAVID asks the final question	Any choice -> [RESPONSE RECORDED] -> black screen
